

Introduction:

You have seen how we can use symbols. As long as we understand the code, we can understand what the symbols mean. We used symbols for simple actions. Then we saw the traffic lights. All these are symbols.

There are many other symbols we see and use all the time.

Questions: (* questions can be used for evaluation)

1. Do you know these symbols?

.....

.....

.....

.....

.....

2. Do you know symbols for the following? Can you make your own symbols for them?

	To show	Symbol
1	“This is a restaurant”	
2	“The answer is correct”	
3	“The answer is wrong”	
4	“You are a very good student!”	
5	“I am smiling! I am happy!”
