

Draw a flowchart for the given scenarios

1. IsThisNumberPrime

Prime numbers are positive integers that can only be divided evenly by 1 or themselves. By definition, negative integers, 0, and 1 are not considered prime numbers.

Given this definition, draw a flow chart.

2. Create a flowchart based on your normal school day. Here are some guidelines.

Getting ready for school

Look at your timetable and pack your school bag

If PE is there pack your PE uniform and shoes

At School

Attend the morning session with subjects Maths, English and Science

Decision on what to play during recess

After reaching home

Have a snack

Depending on the day choose the class you have to attend. Monday – Karate, Tuesday- Math class, Wednesday and Thursday-Free day, Friday-Karate.
