Bringing computational thinking to schools

1. Draw a flowchart for the following situation, "I can open a present only if it's my Birthday"
   Check if it's my birthday
   If it is, then open the present
   Check to see more presents, if yes, open them.

2. Given the following algorithm, to find a number if it's or Odd or Even, draw a flowchart.

   Input a number
   Divide the number by 2 and, if there is a reminder "Print Odd number" else "Print Even number"

Name: **Class:**   **Div:**   **Roll. No:**
